## PIANOS ARE FOOD FOR \$75,000 BLAZE

**Earthquake Embers  
Responsible for  
the Fire.**

SAN FRANCISCO, Oct. 19.—Fire destroyed an unmeasured stock of pianos valued at \$75,000 in the storerooms of Kohler & Chase, the owners, at Bush and Franklin streets, at 7:30 o'clock this morning. The blaze is attributed by the fire department to debris believed to have been smoldering since the site was swept by fire on April 23.

The alarm was turned in by Patrolman George Mengola, who saw smoke issuing from the storeroom that stands in the center of the group of six. Prompt response by the fire fighters saved the building, but not the stock of pianos, which was ruined by heat and by the water played upon it.

The outlet exit, in the corner room, was uninjured from either source. This was the only room of the group occupied at the time, but was not in any way responsible for the flame.

Coal heaps are yet often found to be smoldering in the burned district, and it is believed, were responsible for the blaze this morning. No other explanation is held possible by the firemen.

Kohler & Chase carried no insurance on their stock, which was placed only temporarily in these rooms. The building was a frame structure, owned by the firm, and was to be let to merchants as soon as a suitable place could be found for the pianos.

## WHO TOLD BOY WHO TOLD GIRL MAN WAS SHOT?

BERKELEY, Oct. 19.—Police of Berkeley were much exercised this morning over a rumor that a man had been shot at Berkeley way and Henry street. Officer Fraser was told by Arthur Pouts, the barber, that a girl had told him that a boy had told her that a man had been shot at Henry street and Berkeley way. Officer Fraser told the barber that the rumor was the best detective of the force were then detailed to investigate the story that the girl had told the barber that the policeman had told the sergeant and that the sergeant had told the chief, to the effect that a man had been shot at Henry street and Berkeley way. No clue was found to the shooting.

## POLICE HOLD MAN WHO MAY BE THE MURDERER OF TENNY AND TRUEBODY

WILLIAM WHITNEY,  
Charged with having attempted to rob aged Thomas Hart of Benicia and who may know something of the murder of Motorman Tenny and Watchman Truebody

## Prisoner, Who Says He Is a Professional Hobo, Arrested Near the Scene of the Tragedy.

The police have in custody a man named William Whitney, whom they believe knows something about the fatal shooting of Motorman Tenny and Night-watchman William P. Truebody near the Sixteenth-street station last Sunday morning. Detectives are working on the case and looking into Whitney's record in an endeavor to learn his whereabouts Saturday night. Whitney was arrested last Sunday at about 7 o'clock p. m., at the Sixteenth-street station by Policeman Brock, who was nearby when the double tragedy was enacted. The prisoner was taken to the police station and held on suspicion.

Last night Brock swore to a warrant accusing Whitney of attempting to rob Thomas Hart, an aged resident of Benicia, while he was alighting from an overland train at the Sixteenth-street station.

Whitney appeared in department two of the Police Court this morning. He wanted to have his preliminary examination at once, stoutly maintaining his innocence. His hearing, however, was set for November 1. When asked if he had an attorney, Whitney stated that he was a stranger in this city and had no money to defend himself.

When interviewed in his cell this morning, Whitney admitted that he was a professional hobo, and his life for the past few months has been spent in touring the country on the brakebeams of overland trains.

NEW YORK, Oct. 19.—An investigation of the charges made yesterday by Charles F. Murphy, leader of Tammany Hall, that attempts had been made by the managers of the Independence League in this city to obtain money from Democratic nominees for congress, senate and assembly, was begun before the grand jury today.

Mr. Murphy and Francis F. Shober, Independence League and Democratic candidate for congress in the Seventeenth district, were admitted to the grand jury room. Mr. Murphy was accompanied by City Magistrate Moss. Mr. Murphy remained in the grand jury room about fifteen minutes, and a few minutes after he emerged it was said that three additional subpoenas had been issued as a result of his testimony.

It was learned on what is considered good authority that the three men subpoenaed are Congressmen Joseph E. Goulden, William Astor Chanler and Joseph Prendergast. When Mr. Shober (Continued on page thirteen.)

## EVERYBODY WORKS BUT THIS MAN

The laziest man in Oakland, according to the police, is Robert McKenna, a hodgecarrier, weighing two hundred pounds, who is now incarcerated in the city prison as a defaulting defendant. McKenna is accused of "everybody works but me" and he ordered McKenna to be arrested and brought to jail.

McKenna was arrested some months ago for not securing sufficient sustenance for his wife and offspring, but Police Judge Smith has continued the passing of sentence from time to time in order that the man might secure employment and earn some money. He has had to appear each month and give an account of himself, and this morning was one of those times.

McKenna was not present in court, but his wife was, and she told the court that her husband was too lazy to make his appearance. She asserted that McKenna had worked but one day in three months, and that she had had to get out and keep the wolf from the door.

Judge Smith believed this case to be a real, living example of "everybody works but me" and he ordered McKenna to be arrested and brought to jail.

Policeman Murray went to the McKenna home at 395 Jefferson street and found the laziest man taking it easy at the family fireside. The man has been drinking, and is now on the verge of delirium tremens.

## SEARCH FOR BURGLAR IN AUTOMOBILE

Mr. and Mrs. Charles Butters, the well known society residents of Claremont, accompanied by their guests, Mr. and Mrs. P. R. Boone, of 2023 Durant street, also prominent members of the smart set, had an exciting experience with a thug last night while traveling in Mr. Butters' big touring car along Alcatraz avenue.

When the machine had reached a point within a block of the cigar factory at the lower end of the reservoir, the Butters saw by the rays of the big auto-searchlights on the car a man lurking behind a tree with a piece of lead pipe in his hands.

Urging his chauffeur, W. E. Hall, to throw on the high gear, the party dashed from the scene and sped to Idora Park, where Police Officer Ely and two special policemen stationed at the resort were bundled into the machine. Mrs. Butters and her guests having temporarily vacated their seats in favor of the officers.

Returning at a high rate of speed to the spot where the thug was discovered, they found that he had disappeared, leaving no trace of his movements. The neighborhood was scoured in the hopes of landing the highwayman, but the efforts of the searchers proving fruitless, the party returned to the park, where the ladies and Mr. Boone were picked up and the pleasure trip continued.

When a TRIBUNE representative called Mr. Butters up on the phone this morning his secretary substantiated the story, and added that the robber made no attempt to molest the occupants of the machine, but seemed to be lying in wait for a victim.

## BIG STORM.

NEW YORK, Oct. 19.—Much property was destroyed and the Prado and parks were devastated. All traffic in the city was suspended as a result of the storm. All of the sailors and soldiers are reported to be safe.

The cruiser Brooklyn dragged her anchors at the height of the storm and touched bottom, but got off without damage. The other warships, the Minneapolis, the Texas, the Denver and the Prairie, rode out the gale safely. Thousands of tents at Camp Columbia were blown down and the barracks were unroofed.

## INCENDIARY ATTEMPTS TO DESTROY RACETRACKS; ARMED MEN ON GUARD

**Fires Are Started at Emeryville and Tanforan—Four Blazes Are Discovered on the Properties.**

SAN FRANCISCO, Oct. 19.—Officials of the New California Jockey Club, owners of the racetracks at Tanforan and Emeryville, believe that incendiary attempts upon the buildings are responsible for three fires that have recently been discovered in time to prevent extensive damage. Within a few weeks two fires have been extinguished at Tanforan, and employees of the Emeryville track found a tank of unknown origin in a section of the grandstand, which is seldom occupied. Private detective agencies have been employed to guard the property and prevent future fires.

## NO EMBLEMS FOR FRESHIES

Prep. School Letter Adds to the  
Wearers' Conceit, Declares  
an Editorial.

BIRMINGHAM, Oct. 19.—The editor of the college paper takes the stand editorially this morning that the wearing of preparatory school emblems by freshmen should be prohibited by the upper classmen on the ground that their display adds to the natural conceit of the first-year men. The editorial follows:

Many universities prohibit the wearing by college men, upon the campus, of "prep" school emblems which they have had centered on them by their high schools. It is an excellent idea and California should adopt it. Few are aware we know, but there has been no definite sentiment against them. The "prep" school letter to a certain extent detracts from the honor of the university emblem. It also adds in many cases to the conceit of many freshmen while the generally prevalent custom without the aid of any outward sign. This is an old subject, but the custom is a good one and should be adopted.

## ROMANCE OF MANY YEARS; A WEDDING

A romance which began in England years ago, when the contracting parties were schoolmates, culminated in this city today when Mrs. Annie Harrison, aged 59, the widow of a wealthy rancher of Vallejo, married the son of the late Joseph Thompson, aged 52, a widower, and a prominent merchant of Portland, Oregon. Deputy County Clerk "Cupid" W. H. W. issued the marriage license this morning, and the sweethearts of bygone days left the Hall of Records to look for a minister to perform the wedding ceremony. Mrs. Harrison's beautiful daughter accompanied her mother, and the bride and groom have children.

## Willie and the Dry Land Steamer.

Yesterday I felt like getting a little fresh air so I went out on one of our wagons with John Bruce. Now, John is a very careful driver and can't hit every stone in the road if he tries, so we went down Franklin street, and, honest, I got seasick. Then when we struck Moss avenue, going over from Telegraph avenue to Broadway, we nearly got wrecked. Talk about bounding billows and rough seas, why, John had to strap me in the wagon and if I had a fall on I would have went into a hole 10 feet deep. (Go, what a streak of streets, but holes and ruts there. At one hole we stopped, and there was an oil bar sticking up out of the ground and I got out and kicked it and a "Gee" said, "off" there, when you see I am standing on a load of hay, Go and get a "Gee" Pa was looking at his tax receipts yesterday and I asked him what it was he said, he said it wasn't for boys to look at that tax a was for the street department, so a would have good roads. Oh, such a talk about something and one, clothing, hats, shoes or shoes, a more interesting subject does not exist. You will become interested at once, the prices are so attractive, and besides that, there's no tax with this year. We are going to have a 2000 dollar a year for Christmas at

The felony charge of attempting to commit robbery which was placed against Gustav Anderson, a young Swede, was reduced this morning to one of exhibiting a deadly weapon in a rude and threatening manner, to which the prisoner pleaded guilty and was given three months in the city prison by Acting Police Judge Quinn. It was alleged by Emma Pell, on Sixth street, that Anderson entered her place and flourishing a revolver about, threatened to kill all the inmates. He was restrained, however, and placed under arrest.

## MILLIONAIRE FIGHTS BILL OF ONLY \$27

This is the story of a millionaire who objects to paying a bill of \$27 due a workman for his labors. The rich man is W. J. Reed, principal stockholder in the Rainier Mill and Lumber Co., a large concern doing business in Oregon.

Last December Reed engaged R. H. Stokes, a tallyman, to survey a large cargo of lumber. The task lasted nine days, Stokes being engaged at \$3 a day.

Being unable to collect the money, Stokes' attorney, H. W. Fuleider, brought suit about six weeks ago. Reed was away, so an attachment on money due him was served.

The suit was heard by Justice of the Peace Quinn, who rendered judgment against Reed, although the latter testified that he engaged Stokes on a bill of the Rainier Mill and Lumber Co. This Stokes denies.

Reed, it is expected, will appeal the case rather than pay Stokes the \$27.

Dr. Brouwer, in an interview, said the trial had left him almost penniless. He said:

"Here I am a free man at last, happy as happy can be, but without a cent. My content, however, is complete, because I have paid my debts and have cleared my name. I ask no man for help. I am strong and in the prime of life. I can work. Work never had any terrors for me. I still have

fed that the cruiser Brooklyn had been floated and is all right.

NEW YORK, Oct. 18.—The Western Union Telegraph company announces that its cables to Havana are intact and that communication with its offices has been had, but that no details as to any storm damage has been received.

The pinion is expressed that no great damage has occurred or information to that effect would have been forthcoming.

A man who arrived this morning at Fort Pierce, 150 miles north of Miami, Fla., says that there has been great damage to houses and buildings along the coast, but no loss of life is reported.

### SEVERE DAMAGE.

Reports from Florida indicate that the hurricane was furious along the southeast coast and severe damage there is apprehended. This, together with the isolation of Havana causes some anxiety as to the safety of the American warships, which were in Havana harbor when the storm began.

### OVER 100 DEAD.

The Evening Telegram's Havana dispatch is as follows:

Over one hundred are dead today from the worst cyclone which has ever visited this city. The whole American fleet was menaced and the cruiser Brooklyn torn from her moorings and thrown upon the shore.

Ninety-four of the fatalities are confined to natives, while sixteen foreign residents are reported killed.

More than 10 tents in Camp Columbia have been blown to atoms, houses unroofed and one trooper probably fatally hurt.

Fortunately the storm gave everyone about half an hour's warning, and when the blast arrived the marines on shore had sought shelter in the warships. All but the Brooklyn rode out the storm. These ships included the Minneapolis, Texas, Denver and and Prairie.

### LIKE AN EARTHQUAKE.

When the tempest reached its height buildings were shaken as by an earthquake, street cars were carried from their tracks, windows were blown in like paper, and roofs and doors swept away.

It is feared that great loss of life occurred in the interior, especially at Pinar del Rio and on an island at Artemisa.

The wind is estimated to have blown at the rate of 80 miles an hour.

The greatest money loss will come from the damage to shipping. Great waves engulfed about 35 lighters at anchor in the harbor and they were smashed against the wharves.

NEW YORK, Oct. 18.—Communication with Miami, Fla., has been restored by the Western Union Telegraph company.

Miami reports that the hurricane struck the coast there at 6 o'clock Wednesday morning and lasted until 2:30 in the afternoon. The train sheds and docks at Miami were badly damaged. The Methodist church and a number of houses were unroofed.

the callouses on my hands that I received when a carpenter. So I do not think it will be very long before I am on my feet again.

## PRAISES DASH OF AMERICANS

BOSTON, Oct. 18.—Mrs. O'Connor, wife of T. P. O'Connor, M. P., paid this tribute today to the American woman:

"Beautiful that is at once delicate and bewitching, a delightful strenuousness and a dashing style, are the winning combination that characterize the American woman and make her irresistible."

"The American woman is more independent, more healthful and has a more stylish taste for dress and home furnishings than the English woman."

It is but fair to the English women to say that Mrs. O'Connor was born in America. Continuing she said:

"The American girl of 17 is simply lovely. No other girl on any continent can boast of such a delicate beauty."

"The American woman is more independent and more healthful than the London woman. I suppose that is because the American girl gets out in the world and struggles for herself. I notice the girls full of life and hustle. They do not appear to be at ease unless they are doing something."

"It takes time to give an English woman taste in dress. You Americans adopt the styles instinctively as they appear."

## SLIDES DOWN WATER PIPE TO ESCAPE

Attempting to escape from a policeman at the corner of Sixth and Washington streets by sliding down a water pipe, John Taylor, colored, a trainer living at the California Jockey Club race track, lost his hold and fell to the ground, a distance of twenty feet, fracturing his right ankle. The patrol wagon was summoned and Taylor was taken to the receiving hospital. Taylor said he was making a call and heard some one knock on the door at the same time exclaiming: "Open, this is a police officer." Not wishing to be arrested, he climbed out the window and tried to make his escape via a water pipe, but lost his grip.

## NEW ADVERTISEMENTS

# THE DEADLY PARALLEL

On Wednesday, October 17, '06, the day that Exhibit No. 1 in the below left hand column appeared in the "Oakland Herald," the first two letters in the right hand column passed by messenger service between the "Oakland Herald" and my representative, Mr. W. W. Cooley.

On Thursday, October 18, '06, the day that Exhibit No. 2 appeared in the "Herald" and other papers, the third letter was in the Herald Office.

### EXHIBIT No. 1

Extract from advertisement that appeared in the "Oakland Herald" of October 17, 1906.

A FEW DAYS AGO "THE HERALD" WITHDREW THIS OFFER, THINKING IT HAD SERVED ITS PURPOSE—THAT OF ATTRACTING ATTENTION TO OUR RAPIDLY GROWING CIRCULATION—BUT THERE WERE THOSE WHO CONSIDERED OUR WITHDRAWAL AN EVIDENCE THAT WE DIDN'T HAVE WHAT WE CLAIMED—ONE BRAVELY JUMPED INTO PRINT IN THE COLUMNS OF OUR JEALOUS CONTEMPORARIES—HE HAS NOT INVESTIGATED, NOR ATTEMPTED TO, OUR CLAIMS—HAS NOT MADE GOOD WITH THE PUBLIC—WE ARE READY AT ALL TIMES TO MAKE GOOD ON OUR \$5000 OFFER, AND ASK ALL ADVERTISERS WHO ARE DESIROUS OF INFORMATION ON THE SUBJECT OF OUR CIRCULATION TO ACCEPT OUR PROPOSITION.

### EXHIBIT No. 2

Extract from advertisement that appeared in the "Oakland Herald", October 18, '06, and signed by the Oakland Herald Publishing Co.

HE, ESPECIALLY, HAS EVADED, UP TO THE PRESENT, THE INVESTIGATION WE SO MUCH COURT, AND WHICH HE SEEMED SO ANXIOUS TO MAKE. HE HAS NOT MET US WITH HIS REPRESENTATIVE, AS OFFERED, HAS NOT HAD THE MANHOOD TO DO AS HE SAID HE WOULD, AND HAS IN THE MOST CRAVEN AND COWARDLY MANNER PROVED, IN NOT INVESTIGATING, OR ENDEAVORING TO, CORRECT THE FOUL IMPRESSION HE STROVE TO SPREAD BROADCAST.

With the left hand the "Oakland Herald" writes to the public that "He has not investigated, nor attempted to, our claims," and with the right hand writes to my representative as above—speaking of criminal libel. What does that look like?

H. C. USINGER,

For USINGER & USINGER, 464 Eleventh St.

Letter from Mr. W. W. Cooley to Mr. F. W. Worcester: Oakland, Cal., Oct. 17, 1906.

Mr. F. W. Worcester, general manager "The Oakland Herald," Oakland, Cal.—My Dear Sir: I have been requested by Mr. H. C. Usinger to represent him in making an examination of your records to determine whether or not "The Oakland Herald" has a bona-fide circulation of 23,000 copies daily.

In order that I may ascertain the facts it will be necessary that I shall be allowed such access to your books and records as will allow a full investigation as to this point.

It will be necessary for me to have access to your records for a year, so that I can ascertain the cash receipts monthly from carriers, mail and other subscriptions. It will be necessary for me to check and verify your white paper bills during that period.

Kindly let me know whether you will furnish me with this information as I suggested, and assuring you that I will make a fair and just report of things as they are, I am, very sincerely,

(Signed), W. W. COOLEY.

Letter from Mr. F. W. Worcester to Mr. W. W. Cooley: Oakland, Cal., Oct. 17, 1906.

Mr. W. W. Cooley, 958 Franklin street, Oakland, Cal.—Dear Sir: In response to your favor of October 17, just received, beg to say that Mr. Usinger, in asking you to make an examination of our records, is doing something that is foreign to any guarantee we have made him. He knows this and is a contemptible cur to ask you to do anything of this kind in the face of what he knows to be the truth.

You will, therefore, not be granted any such privileges. My guarantee, as published in the newspaper, is enclosed herein—the \$5000 guarantee in gold. On this basis I am going to make good to Mr. Usinger. If not, I shall prosecute him for criminal libel. It is only on this basis that you or any one else can be made a party to an examination of "The Herald's" books.

Yours very truly,

(Signed), THE OAKLAND HERALD.

By F. W. WORCESTER, Pres. and Gen. Mgr.

(Enclosure). Letter from Mr. W. W. Cooley to Mr. F. W. Worcester: 958 Franklin Street, Oakland, Cal., Oct. 17, 1906.

F. W. Worcester, Esq., Pres. & Mgr. Oakland Herald.

Dear Sir: Your favor of even date at hand. As to the disagreement between Mr. Usinger and "The Herald" it is of no personal interest to me. Mr. Usinger sought my services as an accountant on the recommendation of friends.

When the matter was explained to me I informed him. That I had done business with you to my advantage and that I felt friendly toward you.

That my relations with Mr. Wales were of a most friendly character. That Mr. Murray was a member of my lodge.

That I had done business with about all of the allied interests of "The Herald."

That if I were to investigate circulation I must have certain confidential data but that if it were furnished me or I allowed access thereto the said information would be used by me only and under no consideration furnished to him or another.

My duty to him being to furnish circulation as proven by records.

Under such conditions Mr. Usinger asked me to proceed. Whereupon my communication was forwarded to you.

In view of the fact that every lawyer disqualifies a possible juror friendly or acquainted with the opposing side, I cannot but feel complimented to think that my services were desired under the conditions.

Prior to the present week Mr. Usinger was unknown to me.

Owing to your former courteous treatment I deem it only proper to explain my position in the matter.

Assuring you that I would not attempt to perform a special work unless I knew that I could honorably secure the necessary data and that information thereby acquired would be used only for the specific purpose for which it was given, I am

Yours very truly, (Signed) W. W. COOLEY.

## JAIL ORDERS FOR SENATOR

Burton Begins Six Months' Sentence at Ironton, Mo., Next Monday.

ABILENE, Kan., Oct. 10.—Joseph R. Burton will begin his six months' sentence at Ironton, Mo., Monday next. He will be accompanied to Ironton by Mrs. Burton, who will remain in that town until her husband's release. Burton, at his home here this afternoon, received a telegram from F. H. Lehman, his attorney at St. Louis, announcing that the latter had made arrangements for the ex-senator to be in court on Monday morning next, when the mandate of the United States Supreme court upon his sentence will be formally presented and Mr. Burton given into the charge of the court officials.

### VAGRANTS ARE LEAVING THE CITY

The hoboes, vagrants and habitual drunkards have evidently taken cognizance of the fact that the authorities are determined to clear them out of the city or put them to work, as the

police court docks were sadly depleted this morning, there being only about a half dozen men occupying each of them.

The policemen all report that many dissolute characters whom they had seen roaming about the streets at all hours have suddenly disappeared, and it is believed that there is a general hegeira of the lawless element from this city.

James Willis, colored, who claimed he was a lumber handler, was given six months in the city prison by Police Judge Smith. Willis was arrested by Detective Kyle last night. The negro asked Kyle for some money and he was immediately escorted to the city prison. Valentine Viers and John Edwards, who claimed they were inmates of the soldiers' home, were arrested at 553 Madison street late last night and charged with violating the sleeping out ordinance. The two prisoners told Ailing Police Judge Quinn this morning that they were without funds, and had been sleeping out several nights. They claimed that they left the home in order to come to this city and go to work. Judge Quinn did not like the stories told by the two men and he continued the case until tomorrow for passing sentence.

### ASSETS WILL MEET \$1,200,000 DEBTS

TURIN, Italy, Oct. 10.—The liabilities of the banking house of Sukerman & Company, which closed its doors yesterday, are estimated at \$1,200,000, and it is believed that the assets will amount to about the same sum.

## GUILTY OF CONSPIRACY VERDICT BROUGHT AGAINST STANDARD OIL COMPANY

### Jury in Ohio Sings Hymns Before Reaching Decision That Anti-Trust Laws Are Violated.

FINDLAY, Ohio, Oct. 10.—By the verdict of the jury, the Standard Oil Company of Ohio is guilty of conspiracy against trade in violation of the Valentine anti-trust law of Ohio. The penalty is a fine of from \$50 to \$5000, which may be repeated for each day of the offense, or imprisonment of six to twelve months.

The Standard Oil company of Ohio has given notice that it will file a motion for a new trial. Under the practice of the court, the defendant has three days to put this motion in form. The next step will be for the court to impose the penalty. The defense will then take their bill of exceptions to such rulings of Judge Banker as they object to, to the circuit court of the State. The appeal from this court is to the supreme court of the State, by which tribunal there is no doubt the issue will ultimately be decided.

### VERDICT IS IMPORTANT.

To the State, the suit, the verdict and the ultimate appeal is important, particularly because it initiates an entirely new method of proceeding against alleged trade monopolies—that is, by information and affidavit, instead of by grand jury indictment.

The verdict was rendered at 4:30 o'clock this morning and resulted from a three-day deliberation by the jury during thirty-two consecutive hours. The trial occupied seven days preceding this deliberation.

When the case went to the jury at 8:30 o'clock Wednesday night, the first ballot of the jurors stood nine for conviction and three for acquittal. As the result of continuous deliberations to 4 o'clock Thursday morning, one of the three for acquittal joined the majority. At 7 o'clock Thursday night one of the two remaining for acquittal went over to the other side, and at 4 o'clock this morning the last of the three gave his assent to the verdict of "guilty."

A touch of the dramatic marked the

two closing hours of the jury's deliberations. Hymns were sung during all but ten minutes of this time. This ten minutes came at an end and was occupied by the remaining juror who had stood out in explaining his position and surrender to the majority.

### JURORS SING HYMNS.

There was not the slightest levity about this hymn singing. The jurors had then been many hours without sleep. The songs, which were started shortly after 2 o'clock in the morning by about three voices, echoed at first feebly through the spacious courthouse. After one familiar hymn after another was sung it was evident that the spirit of fraternalism was gaining headway in the small chamber in which the twelve men were locked. The number of voices increased, the hymns gained in volume and enthusiasm. Then "Home, Sweet Home" was sung, the national anthem followed, then more hymns. Laughter was heard between the limited pauses. It bore no tone of derision, but of cordiality. A few minutes later came the announcement that the jury had reached an agreement and Judge Banker was hastily summoned.

After the verdict had been read, Attorney Troup stepped up to the bar of the court as the jury was leaving the box and said he wished to make the motion for a new trial in the case. He was assured by the court that the motion would be entertained, whereupon he returned to his hotel. The court at once adjourned.

### STANDARD'S STATEMENT.

NEW YORK, Oct. 10.—The legal department of the Standard Oil Company has given out the following statement:

"The verdict in Findlay against the Standard Oil Company carries with it a single fine of from \$50 to \$5000, which is the maximum under the law. The law, however, does not limit the information on which the suit was brought. The defendant lawyers in the case are taking immediate steps for appeal, which, before final adjudication, may pass through three courts, namely, court of common pleas, the circuit court and the supreme court of Ohio. They felt confident of securing a reversal on manifold error in the trial just concluded."

## CANDIDATES AT ELMHURST

Well Attended Meeting Is Held in the Country Town.

Under the able chairmanship of D. U. Toffelmeyer, the Republican county candidates met last night at Elmhurst, where the citizens of that place gave them a splendid welcoming. The San Leandro brass band was in attendance on the occasion and the Elks' Quartette rendered its now famous campaign songs and melodies. The hall was, like all the meetings so far held, crowded to the doors, and the spirit of enthusiasm characteristic of the campaign being waged by the Republicans this year was strongly in evidence.

The speaker of the evening was Raymond Staats of Berkeley, who spoke at some considerable length on the principles of the Republican party, the national work of President Roosevelt and the entire administration. He particularly emphasized the good to come from the pure food bill, and the bills passed to regulate the growth and operations of trusts. He took issue with Secretary Taft in relation to the Cuban revolution, the work done by the corps of international representatives and ministers, the splendid results obtained by the president's intervention in the Russian-Japanese war, and the yet uncompleted work now being carried on at home, including the work on the Panama canal, which is being fought by the great corporation interests and the opposition party.

### COUNTY CANDIDATES.

The majority of the county candidates were present, Judges Waste, Harris and Ogden being in attendance to represent the judiciary of the ticket. The first speaker to address the meeting, after a selection by the band and the quartette, was George S. Pierce, candidate for county auditor. He was followed by George Frick, aspirant for the office of county superintendent of schools. Both men are well known in the vicinity and both received much of an ovation. Mr. Frick at one time taught school in Elmhurst and was instructor of the chairman of an evening at one time of his career. W. B. Geary, the popular candidate for the office of justice of the peace of Brooklyn township, was heartily received, and in a short address thanked the people of the district for the support given him for the office four years ago, when he was elected to the office by an overwhelming majority. J. Clem Bates, candidate for senator from the district, also spoke in the same strain, having on two occasions been elected to the office of assemblyman. Tax Collector James B. Barber was next to address the meeting, being followed by County Clerk John P. Cook. Owing to sickness Treasurer M. J. Kelly was unable to be present and Mr. Cook spoke in his behalf. Dr. Charles L. Tiedale, of Alameda, candidate for county coroner, next spoke and also addressed the meeting for P. A. Haviland, candidate for county surveyor, who was unable to be present. Others to address the meeting were Public Administrator George Gray, W. B. Bridge, candidate for supervisor; Everett Brown, candidate for district attorney; Sheriff Barnett and William Allen, candidate for constable. Tonight's meeting will be held at Piedmont.

## Progress of Tuskegee Institute.

We have before us the twenty-fifth annual report of Dr. Booker T. Washington, principal and founder of the Tuskegee Normal and Industrial Institute, Tuskegee, Alabama, an institution that has become internationally famous for what it has accomplished in the uplift of the Negro race in the United States. It is a document full of human interest, carrying hopeful tidings of the moral and material advancement of the colored people of the South. During the past year 1621 students have attended the institution, 553 have come from the State of Alabama and the remainder have come from 47 States and foreign countries. This number does not include 194 in the Training School or Children's House, 56 in the night schools of the town of Tuskegee, 25 in the night school Bible classes, nor the 11 in the afternoon cooking classes in the town of Tuskegee. The total number of students enrolled during the year is therefore 1907.

Such a showing for an institution founded a quarter of a century ago by an unknown black man, practically without means, with ideas all his own as to what the character and mission education should be for the African race in America, if that race is to become a force in civilization and make a place for itself among the self-sustaining peoples of the earth, tells a story of achievement that challenges history for a parallel. Dr. Washington is teaching his people how to work and how to live—the secret of success in life and the taproot of modern culture. He has instilled lessons of thrift, industry and domestic economy along with the principles of morality, self-control and the dignity of independence. But the character and purpose of his work can best be stated in his own language, taken from the report at hand:

"This idea includes the preparation of teachers who are not only to know the best methods of imparting the usual academic branches, but who can weave into their teaching practical as well as theoretical knowledge and who will teach the dignity of hand labor, the disgrace of idleness and impart correct ideas of living. Equally important is it to cling to our first idea of doing everything possible to promote the most friendly feeling between the races. The training of Negro youth for efficient service will show the white race, we believe, that the education of the Negro helps both races.

"From the first it has been our plan to use the large industrial plant to teach methods of labor, and to try, as far as practicable, to make each industry maintain itself. It would be wrong, however, to cherish the idea that industries can be made to pay their own cost in any large degree. If the institute farm is to accomplish its highest purpose in training, it should not be expected to pay its way in dollars and cents any more than the class in arithmetic or history is expected to pay directly in dollars and cents. The old idea of sending the students to the farm for punishment finds no place at the Tuskegee Institute.

"Within the past year we have made progress in blotting out differences between the literary and industrial departments. The plan is to so unite the two that in the training on the farm, in the blacksmith shop, and the cooking division, the student will be given credit in the academic department for all work in arithmetic and English that he does in those departments, and that the industrial processes shall be made the basis wherever possible, for the lessons in the academic department.

"Each year of experience strengthens my conviction that there is great mental drill in industrial training, and I believe that more and more each year the educational world will realize that this is true."

Tuskegee is sending out teachers and artisans every year to broaden the institution's field of usefulness and leaven the mass of ignorance and shiftlessness weighing upon the Negroes of the South. It is giving the race ideals and aspirations which it is showing the Negroes the way to realize; moreover, it is developing the Negro as an intelligent economic force, adding to the value of his labor and improving the conditions of his life. The effect, if gradual, has been tremendous, and is gathering force every day. The institute itself has grown to be a great collection of imposing buildings, with a large endowment, which is being increased from time to time by bequests and gifts. But its needs still outrun its immediate resources. Its work has to be restricted and its student roll kept down in order to make both ends meet. Hence there is always an appeal for more financial assistance to erect new buildings to accommodate the increasing army of students and enlarge the sphere of the institute's usefulness.

It is Dr. Washington's ambition to raise an endowment fund of \$3,000,000. It now amounts to \$1,238,924.57, not including the Dotger bequest, which will not become available till the death of the testator's widow. Among the pressing needs is two dormitories, for boys and girls, to cost \$50,000, and \$25,000 for better equipping the industrial department. Anybody desiring to assist in making the Negro a better and more useful citizen cannot do better than send a donation to Tuskegee Institute.

## No Apologies for Republicans.

The Republican party does not have to apologize for its candidates or its policies. Both have always stood the test, as the record of the past will show, and it does lie in the power of the Democratic party, with its record of failure and bad faith, to successfully impeach them at this late day. It is the height of insolence for a man like Mr. Bell to call upon Mr. Gillett or any other Republican nominee to prove good character. It is an insult to every Republican in the State for him to presume to assail the integrity of the Republican State Convention. Therefore we decline to plead to the impudent fustian charges he has brought against the Republican party and its candidates. Mr. Bell does not attempt to defend the last Democratic national administration nor the last Democratic State administration; he does not appeal to the record made by his own party, nor point to its recorded achievements as a justification of his candidacy and his demand that the Democracy be once more entrusted with the reins of government. To whom does he point as a model of executive courage, ability and integrity? To Theodore Roosevelt, a Republican President. When Mr. Roosevelt was a candidate for President, Mr. Bell opposed him and advocated the election of Alton B. Parker. He displays refreshing impudence now in calling upon Republicans to vote for him in the name of Roosevelt. His appeal should be in the name of James Buchanan or Grover Cleveland. They and what they typify are what Mr. Bell represents in this campaign.

## The Watchdog of the Treasury.

We have not made any appeal heretofore in behalf of Edward P. Colgan, Republican nominee for State Controller, because of a conviction that his election was a foregone conclusion. Our opinion in that respect is unchanged, and we only commend him to the suffrages of the people because failure to do so might be construed by some as an evidence that he has not the hearty good wishes of THE TRIBUNE. Mr. Colgan has served the State as Controller for sixteen years, a record-breaking tenure in that office, and has served it well. His fidelity to public duty has stood the test for so many years that it is mere supererogation to allude to it. If such a record for efficiency and official integrity as he has made does not appeal to voters we do not know what will. Mr. Colgan has guarded the State Treasury with watchful zeal, and has checked irregularity wherever he has detected it. He has never permitted an illegal or suspicious claim to be paid. Socially he is what is known as a good fellow, but officially he hews to the line and holds every official acting in a fiduciary capacity to strict obedience of the law. From this line of conduct he cannot be cajoled nor driven by intimidation. Therefore he is an invaluable man in the position he occupies. So faithful a watchdog should be kept at his post; and we have not the slightest doubt that Edward P. Colgan will be elected to a fifth term as State Controller by an immense majority.

We concur in all the Stockton Record has to say in praise of the Galveston seawall. It is only fair to state, however, that the said wall was not built by a "beneficent government," as the Record says, but by the citizens of Galveston. After the city had built three miles of seawall, the government was induced to build another mile to protect the sea-front of the military reservation.

## WHAT A NEWSPAPER SHOULD BE.

EDITOR TRIBUNE: It is allowable to make frank suggestions to the editor of a newspaper, I take it, because the newspaper itself is presumed to be but the reflector of public opinion and public activities. So if any excuse is necessary on my part for addressing these remarks to you, you have it. If I did not set a high value on the influence of the newspaper, which is the chief literature that comes into the busy lives of the majority of the people, I would not take the time to write this letter to you.

But to come to the point. Is there no room in a live newspaper for an appreciation of sincere service and uplifting effort? Is there no room for thoughts that will help, that will abide with one at least for a few moments after the eyes have glanced over them? Is the function of a newspaper only to exploit evil, to advertise sordidness, to keep on a level with the shabby vulgarity that effervesces in our public life? Newspapers, particularly here on the coast, make a specialty of turning the spot light on everything that is debasing, humiliating, wearying. What effort is made by your paper, for instance, to give the people something really helpful, something that will encourage and revive our wilted ideals?

I am not one of those who believe that anemic whitewashing or hypocritical indifference, to evil is the panacea for the conditions that all sincere men and women are trying to alter. Boshy sentiment and buncombe will not accomplish anything. There should be unsparring exposure of all kinds of rottenness, and a newspaper that fails in this respect will scarcely grow really strong. But hysteria and sensationalism are not proper weapons. But a long reign of this policy on the part of the vast majority of newspapers has made the public blasé. You fail to stir its wrath against wrongdoing or to arouse its enthusiasm for righteousness. If the public is distrustful and cynical, it is because there is no near-by ideal held up for daily use.

Is this impractical talk? I do not think so. I am not a reformer nor a professional good person. But I do know that there is all over the country a great weariness of the grubby ideal held up by our newspapers. Were we not a virile, independent people, we would long ago have lost all poise and sanity if we took our papers seriously. Rich and poor alike find nothing in our newspapers that is really worth while, although we are all violently addicted to the habit of reading them—more so than any other people on earth. If you will listen conscientiously you will hear all over the country a cry for something helpful—something abiding, encouraging, to enable tired, brain-wracked men and women to endure the struggle with serenity. And such an opportunity the newspapers ignore—an opportunity to make themselves great by helping others in the only enduring way that help can be actually given—by ministering to the minds and hearts of the people.

I do not know you and therefore express myself to a detached intelligence. You have accomplished something in this community, but with faith in the better side of human nature, courage to exploit it and ability to make the task one of mutual pleasure, you could do immeasurably more than you have. It would be no easy task nor a simple one. But it would be worth while in a tangible way and in other ways. Your desire is to make your paper a profitable investment and one that shall have a great name.

It would be something entirely original for a newspaper to have heart power as well as brain power for its moving force. You know as well as I that all the old "features" in Sunday editions, for instance, are most fatiguingly boring. Lots of splash and splutter, but nothing that you can lay hold of. Why not have a page given up to exploiting the better side of life? You have an editor whose duty it is to ferret out all the viciousness that the day brings forth. Why not have one who will go on a still hunt for the helpful things? I have no definite plan and I have no notion of desiring that you transform your corner of the planet into an utopia. I only know that there is a great feeling of unrest all over the country—call it moral or social or religious—mental unrest, I think, is better. A conscientious editor, imbued with a feeling of trustfulness in the ultimate triumph of ideals, or at least imbued with a feeling that our ideals shall not be forever submerged in the whirl of business, could make his paper strong by appealing to this side of our latent emotions. And make it pay in cash as well.

Of course, if you do not think there is such a thing as a national desire for better things socially, politically and ethically; then all my talk has been twaddle and a stupid bit of hysteria. But you certainly waste lots of nice, clean white paper every once in a while—whole pages of it—and you give to our starved appetites a something that is neither fish, fowl or even good red herring.

Very truly yours, L. A. WEICHERT

## TWO YEARS OF SCIATICA

Awful Suffering of a Locomotive Engineer.

Patient Permanently Cured by Dr. Williams' Pink Pills.

After Being Confined to Bed for Months and When Ordinary Remedies Failed to Bring Relief.

Pain that is almost unbearable is a characteristic of sciatic rheumatism. In some cases the pain is knife-like, sharp or shooting, in others it is dull and aching. In acute cases there is some fever but in the more frequent chronic cases there is little or no heat in the affected part.

Sciatica is stubborn in resisting treatment and the patient frequently suffers for years. This was the case with Mr. Herbert E. Spaulding, a locomotive engineer on the Cincinnati, New Orleans and Texas Pacific railway whose home is at Longview, Texas. Mr. Spaulding endured the agonies of sciatica for two years in spite of all that ordinary remedies could do for him until he tried Dr. Williams' Pink Pills and was cured.

"While running an engine some years ago," he says, "I fell off and hurt my knee and spine and have always considered this to be the cause of my illness. The sciatica took hold of me from my heel to the back of my head. The pain was the worst I ever suffered in my life and my leg and back were twisted out of shape. I was under a physician's care for several months and for six months could not get out of bed. I also went to Hot Springs but came back in a worse condition than when I went."

"I was when I was down in bed that I heard of the case of a Mr. Allison, a much older man than myself, who had been cured of sciatica by Dr. Williams' Pink Pills. I began taking the pills and soon was able to get out of bed. When I had taken six boxes I was able to work about the house and yard. I kept right on with the pills until I was cured and I have never had any return of the trouble. I have been running an engine ever since."

Dr. Williams' Pink Pills do not simply relieve pain but they cure, and cure permanently, diseases caused by depraved or vitiated blood. They actually make new blood and have therefore a direct and powerful curative effect on such diseases as rheumatism, anæmia, general debility and after-effects of the grip. As the nervous system depends upon the blood for nourishment and medication, Dr. Williams' Pink Pills are unequalled for the treatment of even the most severe nervous disorders such as neuralgia, partial paralysis, St. Vitus' dance and locomotor ataxia. As a tonic for the blood and nerves they are used everywhere with the greatest success, building up wasted bodies and bringing the glow of health to pale and sallow cheeks.

Dr. Williams' Pink Pills are sold by all druggists, or sent, postpaid, on receipt of price, 50c per box, six boxes for \$2.50, by Dr. Williams' Medicine Company, Schenectady, N. Y.

## URGE SUPPORT OF THE HON. JAMES N. GILLET

### State League of Republican Clubs Sends Out Circular to All Its Members.

The following circular has been issued.

Office of the California State League of Republican Clubs, Stockton, Cal., October 15, 1906.—To Officers, and Members of Republican Clubs. As we are approaching the close of the campaign, the officers and members of all Republican Clubs are called upon to rally more strongly and unitedly to the support of our standard bearer, Hon. J. N. Gillett, and the entire Republican ticket. Officers of clubs are urged to assist the county committee in their respective localities to make all meetings a success, and to render such assistance as they can to perfect the organization in every possible way, they should prepare at once for election day, to bring out the full vote of the party. By united and determined co-operation of all our forces, we must achieve victory. Exert your efforts and influence with one purpose in view—the success of the whole ticket.

"J. N. Gillett, the Republican candidate for Governor, stands before the people as the representative of that great party which has brought prosperity to the country, a party which proposes and accomplishes things for the advancement of the country and the welfare of the people. He also stands upon his own record of faithful service, both in the State and national halls of legislation. He comes before the people without any blustering, or denunciation of his opponents, willing to stand on his merits and the history and policy of the party at his back.

"Let us again prove our loyalty and devotion to Republican principles and prove by the election of Gillett, eight congressmen, and the entire ticket, that we endorse and approve the administration of President Roosevelt. That is one of the important issues involved in this campaign. Respectfully,

"ORRIN S. HENDERSON, President."  
"J. Harry Russell, Secretary."

## FEDERAL MEN AFTER SCHOOL

Methods of Oakland Concern Look Bad to Civil Service Board.

The Interstate School Incorporated, a concern which by means of advertisements induces young men to pay \$25 in advance for receiving its so-called instruction, is being investigated by the federal authorities, owing to discoveries about the concern made by the civil service commission. The school has offices at 418 St. Paul building, this city, and at 724 Market street, San Francisco. The advertisement, which the manager of the school, H. N. Oliver, recently inserted in the daily newspapers reads as follows:

Bright, intelligent men, over 20 years old wanted immediately to prepare for examination for the civil service. The examination is held in December for immigration inspectors, and that ten appointments are to be made. If the ambitious youth seems at all dubious when he is told to pay his \$25 in advance, which, by the way, he is also told, will destroy the cost of instruction, but that he must further sign a contract giving the school five per cent of his first year's salary, the enterprising manager tells the student that he must hurry up and decide, as they already have eight places filled, and there are only two more vacancies.

As a matter of fact, however, according to statements made by C. L. Snyder, secretary of the civil service commission, no examinations for the office of immigration inspectors have been announced and as there are now 1279 eligibles on the list ready to be certified for appointment should any vacancies occur, it is not likely that any examinations will be held for some time to come.

At present there is not a single vacancy in the immigration service for the office of inspector so Oliver will probably have to wait a long time before his statements to the United States government, as well as to his deluded pupils. He states that he makes it his business to know whenever any appointments are to occur, and that his school has definite information as to when examinations are to be made weeks before the local civil service bureau receives it.

Concerning the statement of the authorities that there are no vacancies for immigration inspectors, Oliver says: "These officials are always very reluctant about giving information of probable vacancies. We get our information direct from Washington, because it is our business. We know that there are to be immigration inspectors appointed in San Francisco. It is quite possible that a new immigration bureau will be established in Oakland."

The civil service commission is always ready to furnish on application a manual of the examinations, showing the kind of questions asked. Any young man aspiring to enter the service can get this manual and a copy of the immigration law and prepare himself for these examinations without the assistance of any teacher. Three San Francisco boys have done this during the past few years and secured the coveted positions.

Oakland, at Sixth avenue and East Twelfth street.

A force entitled "Chums" will be presented by local talent, and an invitation is extended to all those interested in the organization.

### AT LUNCHEON.

Mrs. Dan Belden will be hostess next Thursday at a luncheon, which will be one of the interesting affairs of the coming week.

When a Most Worthy Article. When an article has been on the market for years and gains friends every year, it is safe to call this medicine a classic. Such is the case with Dr. Williams' Pink Pills. ## CRIPPLED SHIP SAFE IN PORT

Manchuria Conveyed by Battleship Wisconsin Reaches San Francisco.

Conveyed by the battleship Wisconsin, the crippled Pacific Mail liner Manchuria, which was only recently hauled from the reef near Honolulu harbor, made the trip without mishap. The Wisconsin was in constant communication with her during the voyage and kept in touch with her by means of signals.

On board the Manchuria were Captain Saunders, who commanded the vessel at the time she ran on the reef, Captain Metcalfe, Lloyd a surveyor and Captain Pillsbury, the marine surveyor for the local underwriters. The Manchuria and the Wisconsin made port after sundown and will not be given pratique by the quarantine officials until this morning. The Manchuria will be placed on the Hunter's Point dry dock to ascertain the exact amount of damage sustained, and then bids for repairs will be advertised for.

During the voyage from Honolulu Captain Drake of the Wisconsin stood ready to take the crippled steamer in tow should she become disabled. The battleship remained about 1000 yards in advance of the Manchuria during the entire trip. Though weather was encountered during the last few days, but the Manchuria was making only eight knots an hour and no difficulty was experienced. The Wisconsin has been away from this port for some time. She has been on duty on the Asiatic station and is coming home for repairs.

## A Question For the Public to Decide.

Owing to the fact that the merchant is dependent upon the public and on the other hand the public is dependent upon the merchant, we think every good citizen should assist in the solving of the following question:

"Every newspaper in this community wishes to have a share of advertising from every business house, and if a business house should advertise with every newspaper it would have to close its doors, as the advertising bill would more than amount to the profits made in the business. Being that we are the closest to the public in our respective line of any other house, we take the liberty of asking your assistance in solving this question. We wish to know which of the Oakland papers are most entitled to our patronage, and which of them can do for us the most good in a business way, and we use the following means to determine:

At the bottom of this item you will notice a coupon with the name of the newspaper in which it appears stamped across the face, and if this is the paper you regularly read, cut the coupon out and present it to us, and we will accept the same as a \$10 deposit on any new plans we carry. Only one coupon will be applied to any one plan, and every plan will be sold at our regular cash price.

We wish you to take the greatest precaution in selecting your favorite paper, as this investigation is costing us a considerable sum, and we wish to acquire the desired information. If you are not going to purchase a piano in the immediate future, bring your coupon in and we will give you free of charge a Book of Songs containing fifty of the old favorite songs.

## WIFE DRINKS, HIS COMPLAINT

Charles E. Camp Asks for a Divorce on Grounds of Cruelty.

His wife's love for liquor caused Charles E. Camp, a contracting lather of West Berkeley, to file a suit for divorce in the county clerk's office this morning against her on the ground of extreme cruelty. Camp states in his complaint that he married his wife, Pearl, October 27, 1888, and is the father of three children, the oldest 7 and the youngest three years. Their differences began more than three years ago and since that time she has been a burden to him. On one occasion she left him and remained absent for two months, but upon her return he forgave her for the sake of the little ones. Returning home from a hard day's work one night, Camp claims that he found his wife and a number of male companions

Asks to Administrate on Husband's Estate—Had Not Yet Received Final Decree.

Mrs. Beatrice Tenney, the widow of John M. Tenney, the motorman who was killed by a trolley Sunday morning last, filed a petition in the Superior court this afternoon asking that letters of administration be granted her upon the estate of her husband. The estate is valued at \$1200 and consists of a \$5000 life insurance policy in the Northwestern Mutual Insurance Company and \$300 in bank. Mrs. Tenney was granted an interlocutory decree of divorce from her husband in Sonoma county, April 1, 1905, but under the law she was still his wife at the time he died, because the final decree has never been entered.

## HAS TRAMPED 300,000 MILES IN LONG SEARCH FOR PREHISTORIC RELICS

Captain Newton H. Chittenden, Veteran explorer and archaeological student.

## Captain Newton H. Chittenden Arrives in Berkeley to Visit Shell Mounds About the Bay.

BERKELEY, Oct. 19.—Captain Newton H. Chittenden, the archaeological explorer who has walked nearly 300,000 miles over the United States and Canada, the last fifty years, has come to Berkeley once again in his regular tour of the land of the original American race and his hunt for prehistoric relics. Captain Chittenden is an old Civil war veteran and a member of the New York and California bars. He is a graduate of Columbia college and has written a number of volumes on his prehistoric finds. He has spent the practice of the law many years ago to engage in anthropological research and has numerous medals and other testimonials of the work he has done in behalf of the science to which he is so ardently devoted. Among his medals are one given by the Columbian Exposition of Chicago and another from the California Midwinter Exposition. A more picturesque figure than that of Captain Chittenden has never been seen in Berkeley. There is scarcely a touch of gray on his hair or beard, the former reaching to his shoulders, and tall, erect and supple, he looks every bit the part of the explorer in his characteristic garb. For forty years he has been traveling over North America, from ocean to ocean, from Mexico to northernmost Alaska, living with the Indians and gathering material for the study of primitive American life. Twenty-five times he has crossed the continent in his researches. He has visited every one of the principal tribes of the continent in his researches, learning their customs and habits from observation. ## CARRIED GUN A FOOT LONG

Compositor Who Feared Thugs Arrested for a Hold-Up Man.

ALAMEDA, Oct. 19.—A man carrying a revolver a foot in length, came under the displeasure of Officer Joseph Lawrence last night while walking along Webster street, and when booked at the police station for carrying concealed weapons gave his name as J. C. Sebastian, and stated he was an employee in the composing room of a San Francisco paper. He told the officer that he carried the revolver to protect himself from the numerous roadblocks across the bay. The man and a box of dynamite were found in his pocket, and the arresting officer believed he had a holdup man. The man's employers were communicated with and his identity established to the satisfaction of the police. He is to answer to a charge placed against him tomorrow morning.

## POLICEMAN HURT IN BICYCLE COLLISION

BERKELEY, Oct. 19.—By colliding in the dark with B. N. Thynnes of 1847 Russell street, Policeman Robert F. Hughes was badly injured last night while rushing to a call for an officer. Both men, who were riding bicycles along Grove street, were thrown heavily to the ground. Hughes' face was severely bruised and his machine wrecked. Although he was knocked senseless for a moment, he recovered in time to take Thynnes in custody on a charge of riding his wheel without a light. The latter was released, however, after being detained for a short time at the police station.

## EVENTFUL MEET IS CLOSING AT BELMONT

RICH CHAMPION STEEPLECHASE ON FINAL PROGRAM.

Horsemen Continue to Speak for Quarters at the Emeryville Track.

By LEE DEMIER.

Tomorrow will mark the closing day of an eventful meet at Belmont Park. The sport will open up with the eighth champion steeplechase, for four-year-olds and over, the White Plains handicap, for two-year-olds, and the Belmont Park weight for age race, for three-year-olds and over. The champion steeplechase is run over a course of about three and a half miles and is annually contested by the best of the jumping division of horses. It usually nets the winner close to \$10,000. The imported star, John M. P., is set down as a sure starter with Alfie, Phil May, Hydas, Goldsieur, Thistledeed, Kernel, Jimmy Lane, Delcanta, Belligerent, Grandpa, Agent, Ontario, Commandant, Coligny and The Lad among his probable opponents. The White Plains handicap is a dash of three-quarters of a mile, with Fountainblow, Kentucky Beau, Botanist, Conville, Months, Okente, Don Barique, Rosemont, Arctic, Aluda, J. C. Corro, McCarter, Sewell, Kinsley, Pultsboro, Penarris, Bat Masterson, Killalee, Adoration, Red River, De-baway, Gold Bull, Grimaldi and Tournelle prominent in its entry list. The Belmont autumn weight for age race is the longest race of the meeting, being a dash of two miles and a quarter. John M. P. is in this race also, as is his stable mate, Desert Chief, but those most likely to furnish the winner are Angler, Oxford, Estree, Running Water, Nealon, Cairngorm, First Mason, Logistilla, Content, Inferno, Bull's Eye, Gallivant and Palm Tree. Sir Hutton is also in this and, if fit and good, would probably win the event, but he has probably been retired for the year, although no declaration to that effect has been made by his owner.

A dispatch from Louisville states that the Chicago colts lost \$10,000 when "Wee Lass" was left at the post in the third race at Churchill Downs yesterday. The fully was entered against the best sprinters at the track, and when 6 to 1 was offered against her chances, the Chicago colts lost \$10,000 on her. When the start of the race came she was left footed with her head turned the wrong way. Hannibal De, the 3 to 5 favorite, won the race, with Dr. Spauld, 5 to 1, second and Devout third.

Paddock Judge Jack Dine arrived with four trucks from Seattle yesterday. Reports from the north say that Jack was a real "beat" in the jurgles.

Owner Walter Jennings sought to buy Yorkist at the Keene east-out sale, but he would not go beyond \$200. He got a real bargain when he bought Blandly for \$1500.

W. Campbell J. J. Quillen and Montana Bob Smith who have been racing three horses through the jurgles, have applied for stable room at Emeryville.

Western Al Smith took a ride over to Sausalito yesterday. He came back with some of the pokeys' smiling good.

Bookmaker Jack Atkins is trying the game at Dallas, Texas.

The horses at Dallas, Texas, are running in trotting time. Seven-eighths of a mile in 1:40 and a mile in 2:00 is the record.

Jockey Garner will accompany Sam Hildreth's stable. The boy is a clever lightweight.

There are now 600 horses stabled at Emeryville.

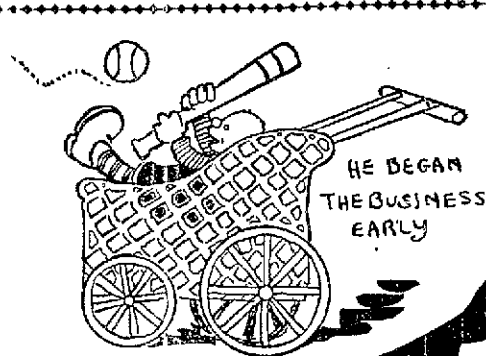

"Red" Walker, who is at present racing in the Middle West, will ship the following horses to Emeryville: Volpa, Petit Duc, Rella, Lazell, Prestige, Crowshade, Anti Trust, Portera, Grande, Sheen, George P. McNeer, The Borgan, Delinda and Manaco Maid.

Jockey Graham, who led the winning jockeys, says he will be able to do 100 pounds this winter.

## RESIDENTS ON VANDERBILT COURSE OBJECT TO RACE

From the talk of the residents and officials of Nassau county since the Vanderbilt race, it would appear that even if France does not claim the race and even if the A. A. A. had not decided to abandon the course used on October 6, it would be impossible to hold another race in that locality. There was some opposition to the contract by natives and the killing of a spectator has brought this opposition into a position of power.

Eventually, of course, the proof of the pudding is in the eating, and one knows the merits of a car by its record in actual service, yet there is a prior method of becoming posted about the different brands that automobilists do not take as much advantage of as they should. This method is to inspect the factories. All of them are open to visitors and it is in the factory behind the car that one finds the causes for excellence and deficiency. It does not require an expert to discriminate between poor and splendid organization in a factory, to discover lax and perfect methods.

## FRESHMEN MAY ENTER VARSITY ELEVEN

STANFORD'S ACTION WILL HAVE EFFECT AT BERKELEY.

Men Have All Broken Training and Trouble Is Anticipated.

BERKELEY, Oct. 19.—Students at the State University are highly interested in the reports that Stanford may allow the privilege of entering the varsity football team to freshmen who are good enough to be debared the right of entering the varsity team, and as a result the freshmen squad is expected to be the best of the year. The men have all broken training and in case it is decided that the freshmen are to be allowed to play in the intercollegiate football game this year, the men will have a great deal of trouble in getting the men in shape again.

## LAST SEASON FOR ASCOT PARK

LOS ANGELES, Oct. 19.—Now comes the announcement that the Cella-Adler-Tilles combination which owns two St. Louis race tracks is the backer of E. J. Baldwin's new Arcadian track enterprise. Local newspapers say the deal of Ascot track has been sounded after this season.

The proposed annexation to Los Angeles of a strip of territory sixteen miles long extending to San Pedro harbor will include Ascot territory and necessarily close it since it puts the track within the city and therefore bars pool selling. At Arcadia the sport will be a still going with no hindrance to legislation to interfere. The Huntington trolley interests have already prepared for extensive car service to Arcadia.

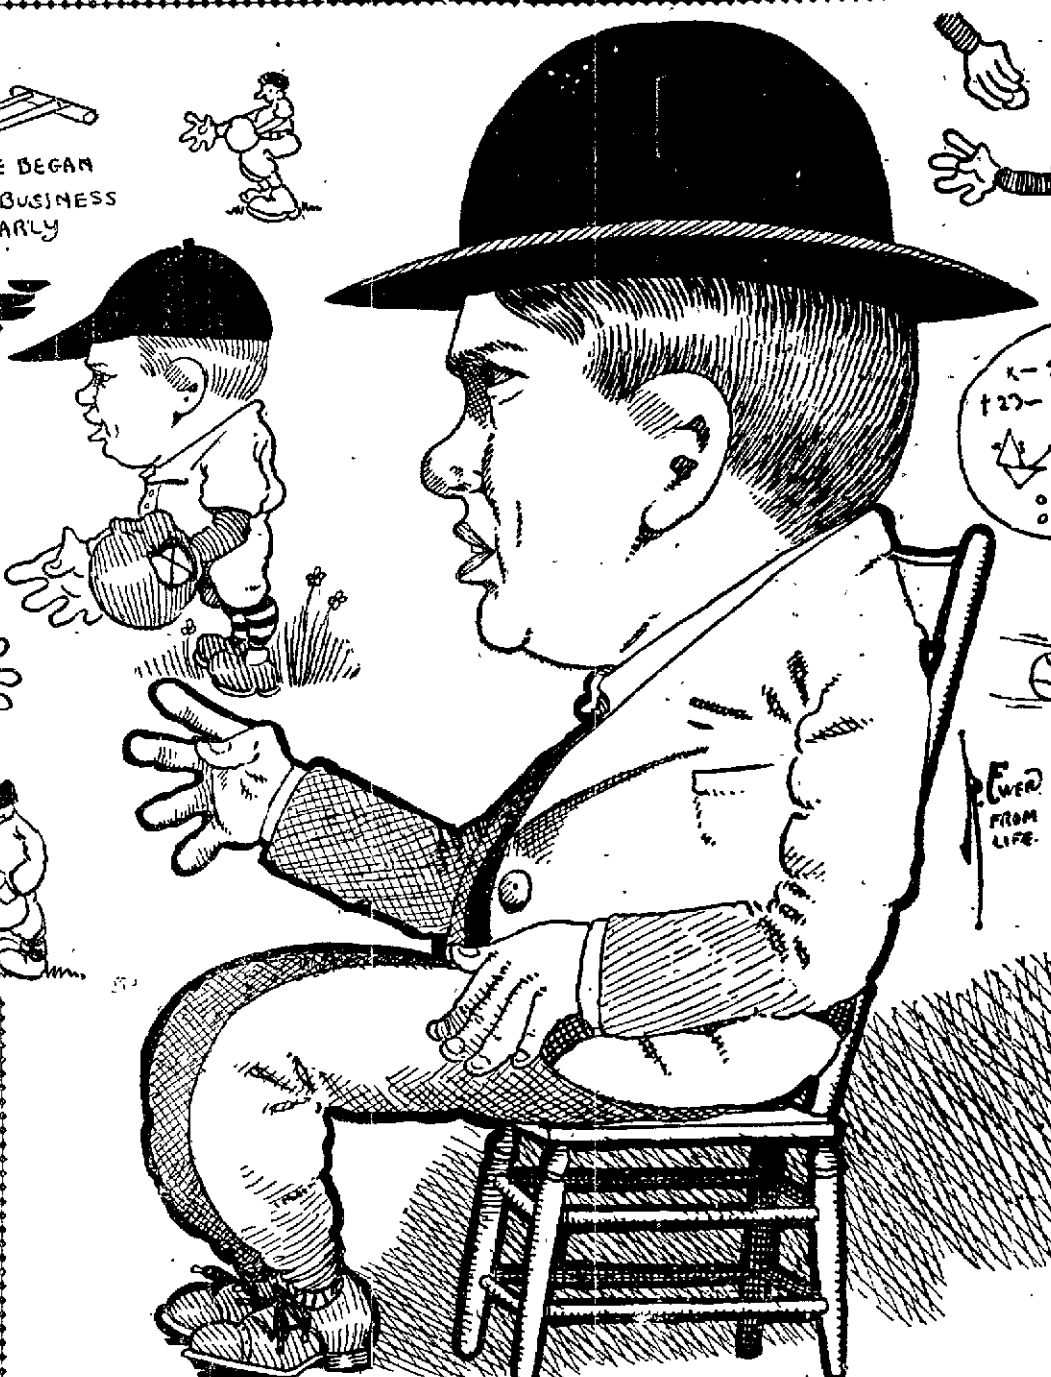

## HUMORIST ARP COMMITS SUICIDE

ANNISTON, Ala., Oct. 19.—William Rice, an old Confederate veteran at Shuck's Sulphur Springs, committed suicide Thursday by taking Paris green. The cause is said to have been melancholy over crop prospects and general financial embarrassment.

He was familiarly known throughout the country as "Bill Arp."

It now seems probable that some American cars will be seen in the European road races next year.

Earlier and more prompt deliveries are in prospect for next year. All the makers are striving toward it. The 1937 models are already beginning to appear. Several well-known concerns have made additions to their factories. The most notable change has been the erection of an entire new plant of three buildings by the George N. Pierce Company of Buffalo.

Character Study of Tom Hackett, Catcher for the Oakland Baseball Team, and Some Comics on his Career.

## TOM HACKETT, FAT MAN AND BALL PLAYER

One of the most valuable and popular men on the Oakland baseball team this year is Tom Hackett. Twenty-three years ago he first saw the light of day, and it was immediately discovered by those who at that time fondled the plump little baby boy that he was some day destined to be a great ball player. As soon as he was old enough to go to school he organized a team and soon developed into a player of renown. Tom's first professional year in baseball was with Quincy, Ill., where he played two seasons, 1901 and 1902. He finished the '02 season with the Nevada team of the Missouri league, helping them to win the pennant. In 1903 and 1904 he played with the Iowa State league. In 1905 he was recommended to Oakland by Kelley, the former second baseman, and with Richards and Bickard, was imported to the coast. When the three left home it was supposed that Richards and Bickard would make good, but it was considered doubtful if Tom would be able to hold his own. He has not only held his own, but has made

good at every turn. He is without any doubt one of the headiest players as well as the fastest in the league, and there is seldom a game in which he appears that he does not pull off some play that startles the opposing team as well as the fans. He is a team as well as a player. He is a player of ginger into the players. He has been his most successful season, and while he, of course, would like to play with some of the big eastern leagues, he will not doubt be a fixture with the Oakland team next year.

## ANGELS TAKE GAME FROM PORTLAND

LOS ANGELES, Oct. 19.—Los Angeles won today's game from Portland, 5 to 3, by timely hits. The locals tallied one in the first inning by a double and a single, added another in the fifth by a single, and a light throw to first and a fumble and an infield hit, winning total to 5. The Angels tallied with three singles and an infield hit. The visitors made their three runs in the eighth, also, on a single past second, a hit to center, a dropped fly and a bunt. The Angels made seven hits off Henderson, while the Portlanders hit Burns for five.

## CORDELL ASKS FIGHT WITH WARD

VALEJO, Oct. 19.—Jack Cordell, who holds a decision over Fred Landers, Jack Clifford and Aurelio Herrera, is in this city trying to get a match with Fred Ward before the local Tuxedo club. The local sports would like very much to see the two men meet, as they feel that it would be one of the best events of the season.

## HOPPE AFTER SUTTON'S SCALP

NEW YORK, Oct. 19.—William F. Hoppe, who retained the 18.1 billiard championship Wednesday night by defeating Jacob Schaefer, the challenger for the title, is desirous of becoming champion at the 18.2 style of play. He has challenged George Sutton, of the Chicago billiards, who won the 18.2 championship last night from George Slosson. Hoppe has posted a forfeit which he has asked Sutton to cover. He has also asked Sutton to fix the time and the place for the match.

## M'GOVERN IS TO MEET YOUNG CORBETT

NEW YORK, Oct. 19.—Terrible Terry McGovern and Young Corbett are to fight fifteen rounds before the club at Chelsea, Mass., for a purse of \$10,000. Terry received the offer from the Chelsea club yesterday and at once agreed to accept if the club will post a big enough forfeit to guarantee its pulling off the match. Young Corbett is as eager as the little Brooklynite to get into the ring again with his old enemy. Neither is satisfied with the result of the battle in Philadelphia Monday night.

## ASSOCIATION FOOTBALL LEAGUE

P. McRitchie, 132 McAllister street, San Francisco. The league will meet at 7:30 p. m. and the union at 9 p. m.

The schedule committee will be elected by the league and will arrange the schedule while the union meeting is on. The league games will open the next day, November 4.

## 2 TRACK RECORDS IN DANGER OF BREAKING

PREP-SCHOOL ATHLETES READY FOR TESTS TOMORROW.

Oakland and Berkeley Are Not Thought Dangerous by Opponents.

BERKELEY, Oct. 19.—Preparatory school athletes who will take part in the Academic Athletic League meet on the University of California cinder path tomorrow afternoon are engaged in final light practice today preliminary to the supreme test of muscle and endurance. The revised list of entries is to be issued today, and it is known that fewer high schools will take part than were originally scheduled. Fourteen in all will be entered, and the fight for first place is between Ukiah, San Jose and Lick. That both Oakland and Berkeley are out of the race was shown by the Bay Counties' field meet a week ago Saturday. Two records are likely to be broken, the relay by San Jose and the pole vault by Yall of Oakland.

## WOLVES THICK IN SWITZERLAND

BERNE, Oct. 19.—Irrespective of the school runs of money distributed every year in Switzerland as prizes for the killing of dangerous animals, this canton spent this year nearly \$6000 for the same purpose, including bounty on 1600 wolves.

## FRESNO LANDS ON WHEELER'S CURVES

FRESNO, Oct. 19.—Wheeler was on the slab for the Seals yesterday, and the Baited Eaters landed all over his curves, getting seventeen hits and sending fourteen across the dish. San Francisco played loose ball, getting into every inning, McClelland, formerly third baseman for Los Angeles, played short and celebrated his debut with the Seals by making three costly errors. Walcott was injured by a pitched ball yesterday and is in bed.

## EDDIE HANLON REFEREES FIGHTS AT DREAMLAND

The boxers who are to fight under the auspices of the California club at Dreamland pavilion tonight are ready for the going. As they have been in actual training, they will be in fine trim and some fast and cyclonic mills may be looked for. Another feature in connection with this fall star show is the engaging of Eddie Hanlon, the popular fighter, to do the refereeing. Eddie will try to make Jimmy Britt look like a duncie spot when it comes to the "Tuxedo" end of the sport. Hanlon is very popular both with the fighters and the public and the selection has been well received. Frankie Edwards, Henry Jones and Lorin Brown finished up their work at the Reliance club yesterday and will give a good account of themselves tonight. A large bunch of fans from this side will go over to see the boys in action against Paul Martin and Charles Kelly.

The balance of the card contains the names of such well-known celebrities that it is not necessary to make further comment on their ability. The complete list follows: Rough House McDonald vs. Frank Mayfield; Walter Stanton vs. Harry Riley; Jim Wilson vs. Walter Kitchener; Eddie Madison vs. Dean Snyder; Joe Kelly vs. Mike Guffy; Joe Kane vs. I. Erving; Frankie Edwards vs. Paul Martin; Charles Kelly vs. Paul Martin.

## CENTERVILLE TO MEET OAKLAND CRIPPLES

LIVELY FOOTBALL GAME TOMORROW IN THE SUB-LEAGUE.

Berkeley and Alameda Will Line Up on Stege Gridiron For Battle.

By TOM VEITCH

The Academic Athletic league football season is now in full swing, seven contests having already taken place in the sub-league on this side of the bay. As is generally the case, the best contests have resulted when nearby teams have competed.

Centerville High school has played more games to date than any other school in the league. It has beaten Berkeley High 10-6, and Alameda High 6-3. However, in two games the undefeated team from the team from Anderson's Academy, the contest between these neighboring schools having yet to be decided.

Centerville goes against Oakland High tomorrow, and in the light of Oakland's 6-0 victory over a crippled team from Berkeley, this should be an interesting game. Oakland, although crippled by the loss of her best player, Captain Malcom, who broke a shoulderblade in the Oakland game, expects to make a good showing against the Centerville lads.

Right here it might be mentioned that Oakland High, as well as a number of the other schools, has been experiencing a great deal of trouble with the A. A. L. blue blanks. These blanks, which require a student to pass in three subjects the previous term and at the time of competing, often prevent the schools from putting forth representative teams. Oakland labored under blue-blank trouble in its game with Anderson last Saturday, three of its men being unable to compete on that account. These blue blanks are uniformly disliked by the students of the various schools and are being voted a dislike of them. It is to be hoped that at the next meeting of the A. A. L. board they will be done away with.

## BERKELEY VS. ALAMEDA

Another interesting game to take place Saturday is that between Berkeley and Alameda High schools at Stege field. Both teams are the best in the league. Berkeley, however, making the better showing. It took three games last year before either of these teams could win a game. Berkeley, however, the schools is still intense, a good game is to be expected.

Anderson's Academy tomorrow will have a real test, being scheduled to face Oakland Polytechnic. Oakland Polytechnic has withdrawn from the league and the points won by default from it by the by will be struck out in figuring averages.

The game which will arouse more interest than any other on this side of the bay will be that between Berkeley and Stege field between Oakland and Berkeley High schools. No matter how poor the teams, a scrappy game is always put on. The teams are expected to be very good. The largest crowd ever seen in California at a high school football game was seen at the contest between Oakland and Berkeley two years ago at U. C.

Berkeley again played Lowell High last Saturday at Stege, scoring one touchdown against the Seals, but failing to kick the goal. This game was only a practice game and is interesting only from the point of comparing the quality of games played by the two sub-leagues. Lowell went down to defeat at the hands of Lick on the same field last Saturday by a score of 1 to 0.

It will be seen that Centerville has won two and tied two, Alameda lost one and tied one, Berkeley lost one and Oakland won one.

Considering this schedule, it is most interesting to see tomorrow what will be between Oakland and Centerville, when the boys wearing the blue will attempt to break into the record of the inland school.

## IS THE MOON INHABITED?

Science has proven that the moon has an atmosphere, which makes it in some form possible on that satellite; but for human beings, who have a body temperature of 98.6 degrees, it is not possible to live there. The moon is a very hot place, and the heat is so intense that it is impossible to live there. The moon is a very hot place, and the heat is so intense that it is impossible to live there.

## \$108,000 FINE FOR RAILROAD

New York Central Was Found  
Guilty of Granting  
Rebates.

NEW YORK, Oct. 19.—Judge Holt in the United States Circuit court imposed a fine of \$108,000 on the New York Central & Hudson River railroad for granting rebates to Lowell M. Palmer who has

charge of transportation for the American Sugar Refining Company. There were six counts and a fine of \$17,000 was imposed in each. Frederick L. Pomcor, assistant traffic manager of the New York Central, was fined \$1000 on each count, a total of \$6000. Judge Holt criticised the practices of the railroad.

## NEW CHIEF OF POLICE IS RECOMMENDED FOR CITY OF SAN FRANCISCO

Grand Jury Finds It Lacking in Discipline  
and Says That It Needs a  
New Head.

\*\*\*\*\*  
We have found that the police department of this city has been lacking in discipline, but we hope that the recent shake-up will make the officers more alert and attentive to their duties. The enforced vacation of one-third of the force by reason of the diminution of the assessment roll has, no doubt, been a factor in the present regrettable series of crimes.  
We recommend that a new chief of police be appointed for the purpose of maintaining and preserving the discipline in the police department, for the better protection of the city's interest.—RECOMMENDATION OF THE SAN FRANCISCO GRAND JURY.  
\*\*\*\*\*

SAN FRANCISCO, Oct. 19.—The Grand Jury completed its labors late yesterday and was discharged by Superior Judge Thomas F. Graham. Its closing act was signified by the passing of a resolution, recommending that Jerry Dinan, chief of police, be dismissed from office. As to the words of this resolution there was a great deal of discussion. The final draft as it appears in the general report was greatly modified from a document originally in the hands of Juror E. W. Joy some days ago, in which such adjectives as "incompetent" and "inefficient" are stated to have appeared. Yesterday there were twelve members present and when the police question was brought up Fairfax H. Wheelan presented a resolution recommending that if, in the near future, the condition of law and order now existing in the city had not taken a turn for the

better, that the chief of police be ousted. This resolution met with ill favor and was discussed with much animation.

DEMANDS DINAN'S DISMISSAL.  
Finally Luther Wagoner presented a resolution which demanded the immediate dismissal of Chief Dinan. Myrtle Corb vigorously protested against this resolution and submitted an amendment to it practically whitewashing Dinan and very much the same in sense as the first resolution offered by Wheelan. After a prolonged discussion the amendment was put to vote and was defeated, nine jurors voting against and three in its favor. A vote was then taken on the resolution of Wagoner's and on the first ballot it was carried by a vote of eleven to one. This resolution was embodied in the general report.

## TROLLEY CAR WRECKS WAGON

Youthful Driver of Peanut Team  
Has Narrow Escape From  
Death.

In a collision between a peddler's wagon and car 173 of the Piedmont Baths line at Fifth and Broadway about 9 o'clock this morning, Joe Dawson, the driver, 17 years old, narrowly escaped death under the wheels of the forward truck. According to Dawson's story he was driving west on Fifth street and had reached Broadway when he saw a car approaching from the north crossing the street. He stopped at the curb, but the car did not stop. Dawson, however, did not notice the wheels of the forward truck. According to a good rate of speed southbound, the horse reached the curb rail the Piedmont car struck it with terrific force on its side, hurled it to the ground and throwing the boy under the wagon. Bystanders rushed forward to the spot, expecting to pick up the youth's lifeless form, but when he was taken from the wreck, aside from being stunned and badly shaken up, he was uninjured. The horse was cut about the forelegs. Mr. Conn, 727 Alameda street, is the owner of the car. Eye witnesses state that the motorist did not ring his bell until it was too late to prevent the collision.

## FLAMES FED BY EXPLOSIVES

Southern Pacific Loses \$150,000  
in Freight Yard  
Fire.

SAN FRANCISCO, Oct. 19.—Fire which broke out in the Sunset freight shed of the Southern Pacific Company at Seventh and Townsend streets last night, caused damage to the railroad company which \$150,000 cannot cover. Thirty-three cars, twenty of which were loaded with freight, were destroyed, and it was only the bravery and presence of mind of the yardmen and engineers which saved the 150 other cars standing on the switches. A lack of water seriously hindered the department in fighting the flames, and for a time all the seeds of the company were threatened. The fire, which was first noticed by Watchman Murnane, who takes care of the Sunset shed, broke out about 8 o'clock. A car on track 20, next to the shed, was on fire, and before the watchman could turn in an alarm, the flames had reached the shed. The high north wind fanned the flames and carried them to the freight cars standing on the tracks between the shed and the yard. By the time the watchmen in the yards were summoned and had turned the hose on the blaze it was beyond control, and was burning vigorously. When the fire department reached the scene.

## CONTAGIOUS BLOOD POISON THE WORST DISEASE IN THE WORLD

Contagious Blood Poison is the worst disease in the world; not only those who contract it suffer, but the awful taint is often transmitted to innocent offspring whose lives are blighted and bodies diseased because the virus of Contagious Blood Poison has been allowed to remain in the family blood. The first sign of this disease is usually a little purple or blister, then a red rash breaks out, the mouth and throat ulcerate, the hair comes out, copper colored spots appear on the limbs, back and breast; and as the disease more thoroughly pollutes the blood, sores and ulcers form and if the trouble is not checked the finger nails drop off, and the soft bones of the nose and head are destroyed. S. S. S. goes down into the blood and forces out every particle of the poison and makes a complete and lasting cure. As soon as the system gets under the influence of the remedy the symptoms begin to pass away, and when the cure is complete the patient is left in perfect health. So thoroughly does S. S. S. rid the system of the virus that no signs of the disease are ever seen in after years, and posterity is born with a rich, pure blood supply. Book with complete instructions for home treatment and any medical advice desired will be given without charge.

### Slipped Up In One Case and Victim Had Chicago Man Arrested.

CHICAGO, Oct. 19.—Postoffice inspectors yesterday raided the office of the Daily Market Forecast, 438 Marquette building, which advertised inside information on "how millionaires were made over night." A fraud order was issued against the concern and H. C. Collins, alias Harris Gates, was arrested. It is charged that the Daily Market Forecast held out alluring prospects to persons wishing to invest from \$5 to \$50 for the daily reports. It promised to furnish tips on big moves which are "born to come" in Wall street and the Board of Trade. A sample of the literature which the postoffice people say Collins sent through the mails is "Millionaires will be created over night, so if you are at all inclined toward the fascinating and profitable art of speculation why not get in right and help secure to a few slices of the 'melons' that are to be cut?" "Opportunities will arise whereby the wide awake speculator can make \$1000 on an investment of \$100 or \$10,000 on an investment of \$1000." The literature was sent to C. A. Delaney of Chicago. He invested, but returned no return and finally complained to Postoffice Inspector Stuart.

### SPLINTER PIERCED FINGER OF YOUTH

Eight-year-old Lloyd Butler, living at 771 Fifth street, was brought to the Receiving hospital this morning by his mother, the boy being the victim of one of the most peculiar cases of splinters treated at the Receiving hospital in months. Attempting to throw a pine stick into space, Lloyd forced a two-inch silver of wood through the first joint of the index finger of his right hand. The splinter entered through the flesh, projecting for more than an inch on the other side. Although the child's mother is a trained nurse, she was unable to remove the piece of wood and took her little son to the hospital, where he was treated by Steward Borchert.

The police have not yet arrested his assailant, but from their investigation they believe that it was done for the purpose of robbery. Dutton began as a bareback rider forty years ago, but during the last few years he has served as a ringmaster and trainer with various shows. In his time he appeared before many of the notables of Europe and was one of the first American riders to exhibit before the Khedive of Egypt and the Czar of Russia. Promises in St. Mary's  
Church.

Great interest is being taken in the solemn renewal of promises to abstain from the use of intoxicating liquors in St. Mary's church next Sunday morning at 7:30 o'clock by the young men of companies F, M and N of the League of the Cross Cadets. Reverend Phil O'Ryan, of St. Mary's Cathedral, San Francisco, the spiritual director of the organization, is coming over to receive the renewal and also to preach. About 150 of the young men will bring appropriate songs and hymns from the league ritual, as well as take part in the congregational singing so beautifully done in this church. Noting is being neglected to encourage this great temperance movement among the young men of Oakland.
